Neuroscience of free will, a part of neurophilosophy, is the study of the interconnections between free will and neuroscience.. As it has become possible to study the human living brain, researchers have begun to watch decision making processes at work. Findings could carry implications for our sense of agency, moral responsibility, and our understanding of consciousness in general.

Hi Marius, "Saved" or the idea of salvation may look differently for them. I guess that some of the mortals who enter as righteous will be saved, but we also know that they will have offspring, these are the ones who will repopulate the earth, and at the end of the 1,000 years it is some of the offspring who are led astray by Satan (when he is released from the 1,000 years in chains).
