knowledge into use; on how we close the gap between evidence and action. As a community of nurses we all need to understand the role we play in the evidence to action continuum and, although these roles will be different, it is important that we feel informed enough to ask good questions, develop our skills and ensure that we

## **CLOSING THE GAP: FROM EVIDENCE TO ACTION**

1 The action research cycle consists at least of intention or planning 7 before action, and review or critique after 2 Within each paradigm of research are several methodologies, each 15 drawing on a number of methods for data collection and interpretation 3 Action research often starts with a fuzzy question and method-; 17

Many of the writers using PAR explain how their research challenges and reveals the limitations of science that is based on a positivistic premise. James Frideres\*, provides a highly critical response. He argues that participatory research is not research at all and states that it can not only mislead participants but is also non-beneficial to
