The use of service dogs by individuals with disabilities is increasing, and their presence in the chemistry

laboratory raises issues of compliance with the Americans with Disabilities Act (ADA), the needs of the individual chemist, and concerns about the safety of the dog and of other individuals in the laboratory.

### **Service dogs in the chemistry laboratory - ScienceDirect**

Chemistry is the scientific discipline involved with elements and compounds composed of atoms, molecules and ions: their composition, structure, properties, behavior and the changes they undergo during a reaction with other substances. In the scope of its subject, chemistry occupies an intermediate position between physics and biology. It is sometimes called the central science because it ...
