Nature is a British multidisciplinary scientific journal, first published on 4 November 1869. It is one of the most recognizable scientific journals in the world, and was ranked the world's most cited scientific journal by the Science Edition of the 2010 Journal Citation Reports and is ascribed an impact factor of 40.137, making it one of the world's top academic journals.

Nature (journal) - Wikipedia

The state of nature is a concept used in moral and political philosophy, religion, social contract theories and international law to denote the hypothetical conditions of what the lives of people might have been like before societies came into existence. Philosophers of the state of nature theory deduce that there must have been a time before organized societies existed, and this presumption ...
