Role of Data in Research and Policy 7. The United Nations Population Division is the main producer of authoritative estimates and projections of the total population and of demographic processes, such as mortality and fertility. The most important part of a population projection is the future fertility assumption.

### **The Role of Data in Research and Policy**

A role always belongs to a specific larger behaviour that involves other roles, called a collaborative behaviour. NOTES 1- The collaborative behaviour of a role represents the specific context in which it is defined, together with other roles. All the interactions of a role are with the roles with which it is defined.

### **A New Definition for the Concept of Role, and Why it Makes**
