VCA toolbox - IFRC

Critical realism is a series of philosophical positions on a range of matters including ontology, causation, structure, persons, and forms of explanation.

What is Critical Realism? - Theory Section

Postcolonial theory is built in large part around the concept of otherness. There are however problems with or complexities to the concept of otherness, for instance:

An Introduction to Post-Colonialism, Post-colonial Theory and

Few thinkers have shown to be as capable as Barry Buzan of continuously impacting the direction of debates in IR theory. From regional security complexes to the English School approach to IR as being about international society, and from hegemony to securitization: Buzan's name will appear on your reading list.

Theory Talks: Theory Talk #35: Barry Buzan

Complexity characterises the behaviour of a system or model whose components interact in multiple ways and follow local rules, meaning there is no reasonable higher instruction to define the various possible interactions.. The term is generally used to characterize something with many parts where those parts interact with each other in multiple ways, culminating in a higher order of emergence ...

Condensed matter physics is the field of physics that deals with the macroscopic and microscopic physical properties of matter. In particular it is concerned with the "condensed" phases that appear whenever the number of constituents in a system is extremely large and the interactions between the constituents are strong.

Box and Cox (1964) developed the transformation. Estimation of any Box-Cox parameters is by maximum likelihood. Box and Cox (1964) offered an example in which the data had the form of survival times but the underlying biological structure was of hazard rates, and the transformation identified this.

For the last century, the evolution of accident investigation can be tied to research and the scientific advancements in how we view our work systems[1]. Three major lenses of scientific research emerge as we begin to examine key influences on accident investigation processes: Classic mid-century ...

We present a critical review of theory, empirical research, and practical applications regarding generational differences in leadership phenomena.

Leadership and generations at work: A critical review

A toolbox for analysing political texts. Discourse analysis is a useful tool for studying the political meanings that inform written and spoken text. In other posts, I have provided a quick video introduction to the topic, and have discussed the ideas behind discourse theory, the main questions that students and researchers will likely ask as they set up their discourse analysis project, and ...
