Space is the boundless three-dimensional extent in which objects and events have relative position and direction. Physical space is often conceived in three linear dimensions, although modern physicists usually consider it, with time, to be part of a boundless four-dimensional continuum known as spacetime. The concept of space is considered to be of fundamental importance to an understanding of ...

Reply Stefan August 20, 2013 at 6:54 pm. I'm Macedonian and I gotta say you nailed the description of my country :). The part about the renovation and statues being build everywhere (and overdoing it) while some folks here are having a hard time financially was especially true, but all that is the result of incredibly bad leadership here.
